

1. Clear Safari Cache

IMPORTANT: Clear cache before installation!

Press **cmd+alt+E** (E as upper case!!) on your keyboard.

2. Install SailTokyo 2020.2

Download selected Mac OSX product from our website www.buell-software.com page products. Open **Finder** and go to folder **downloads** and find **SailTokyo.zip**

Create folder **SailTokyo** in your home folder (if not exists).

Copy **SailTokyo.zip** to your folder SailTokyo.

Double click **SailTokyo.zip**.

Create **Alias** of SailTokyo and copy Alias to **desktop**.
