2	Setup Team Cloud on dropbox .....	1
3	Generate Team Account .....	4
4	Team Member Desktop Login .....	5
5	Team Member Mobile Login .....	<b>Fehler! Textmarke nicht definiert.</b>

# 1 Requirements

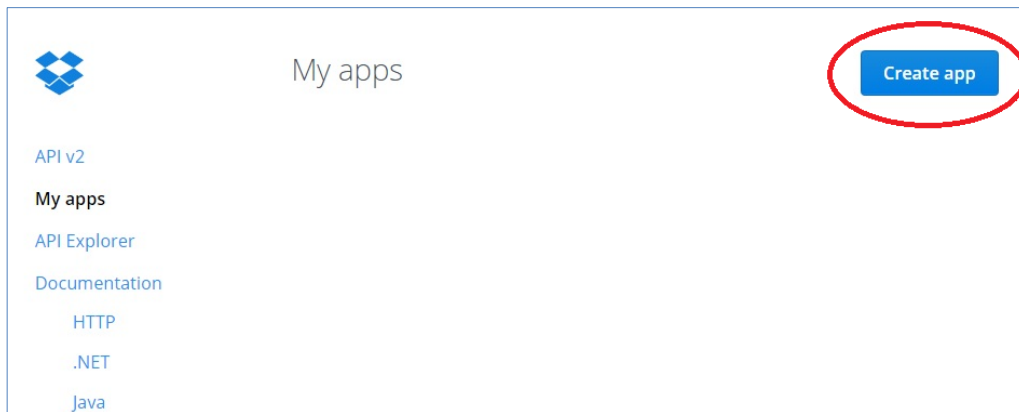

- **Computer** as host for *Team Cloud* dropbox folder
- **Dropbox** installed on that computer <https://www.dropbox.com/de/install>
- Computer must be connected to internet
- Software **SailTokyoCloud.exe** (Get from buell software)
- **SailTokyo administrator key** (Get key from buell software)

# 2 Setup Team Cloud on dropbox

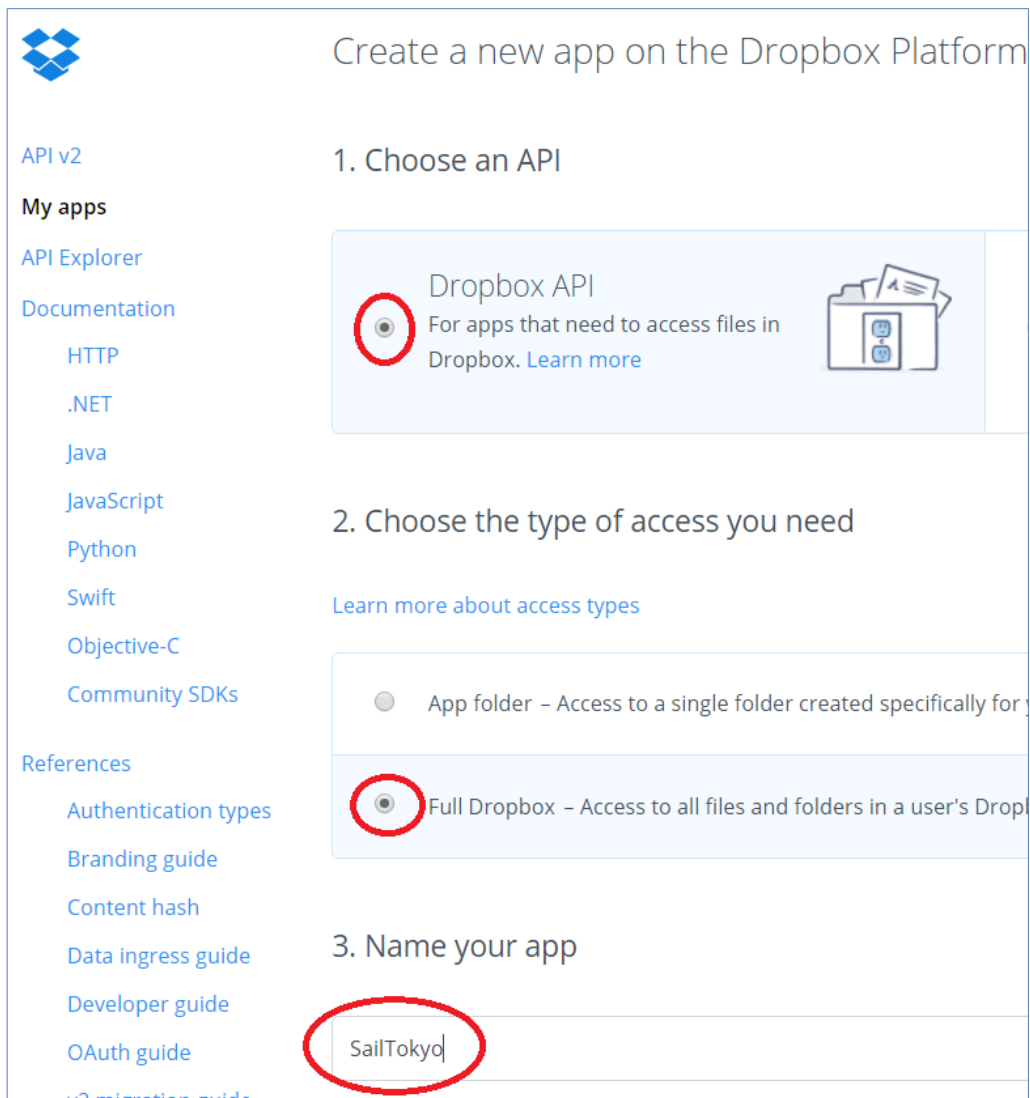

- Open website <https://www.dropbox.com/developers/support>
- Sign in with dropbox or google account (if not yet accounted)
- Click onto **My apps**:

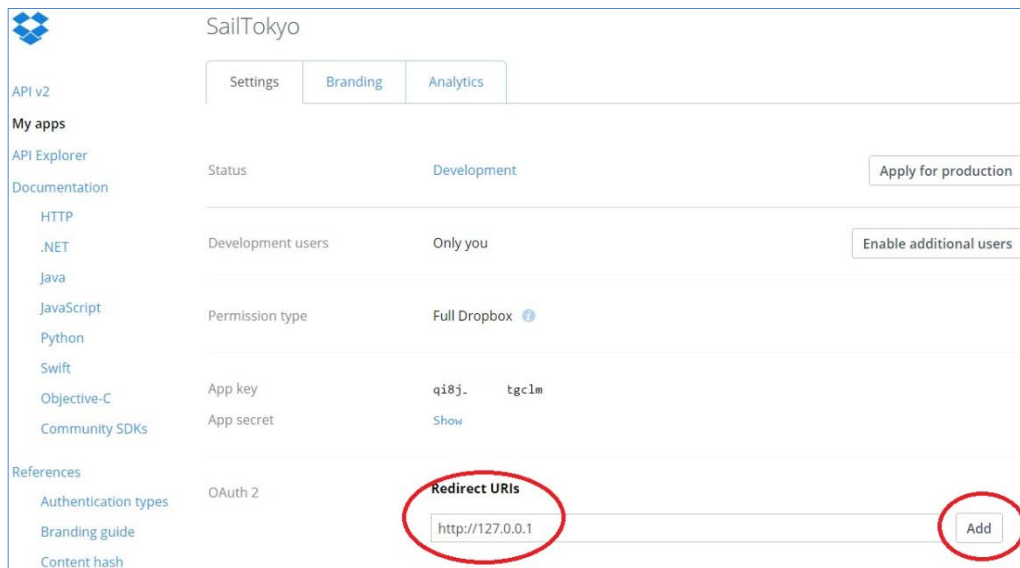

- Click onto **Create app**:

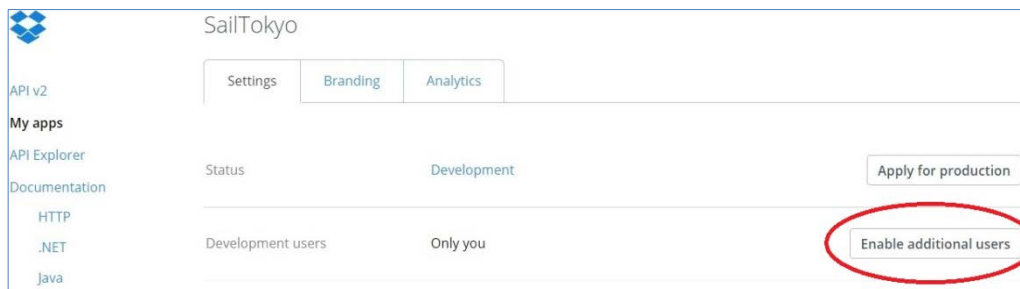

- Enter data as shown and click **Create app**

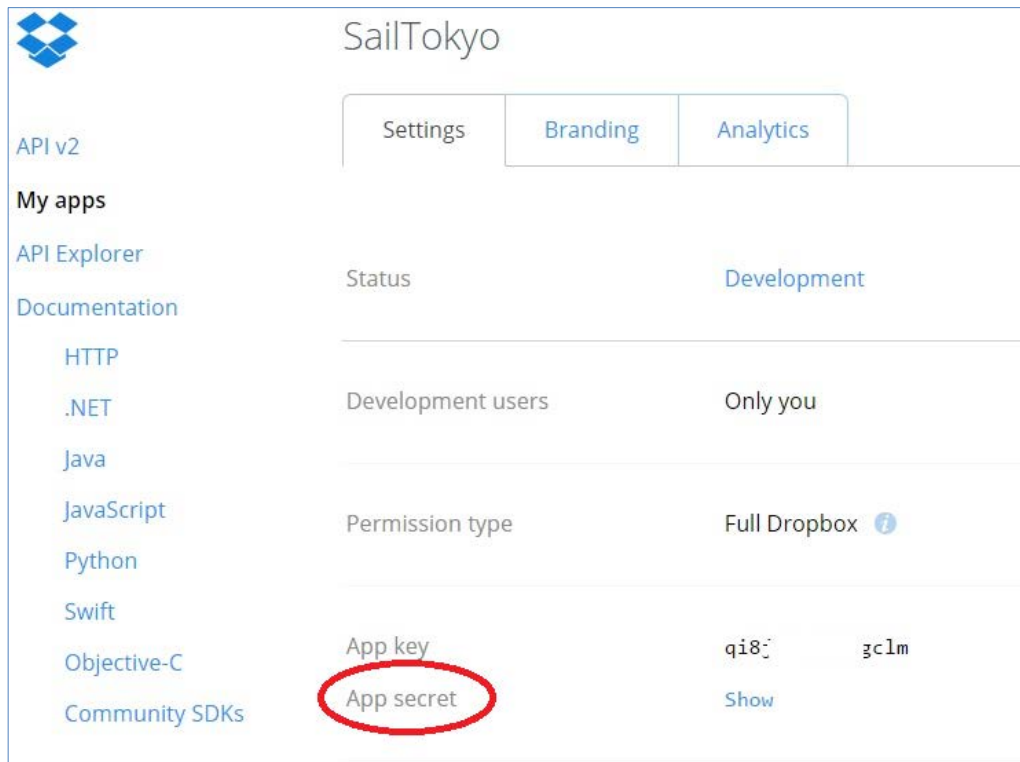

- Goto **Redirect URIs** and enter URI <http://127.0.0.1> as shown below
- Then click onto **Add**

- Click onto **Enable additional users** and type ok

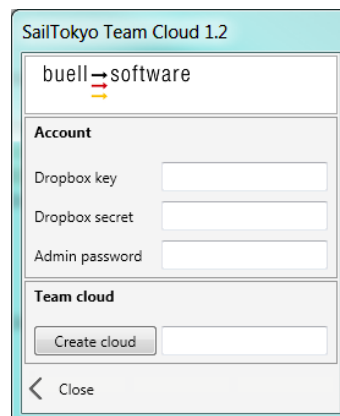

- Click onto **Show** at **App secret** to make secret key visible

- Copy **App key** into a textfile (You need the key later)
- Copy **App secret** into the same textfile (You need the key later)

### 3 Generate Team Account

- Get connected to internet
- Start program **SailTokyoCloud.exe** on your computer

- Enter **Key** and **Secret** (You stored in file)
- Enter **Admin password** (You got it from buell software)

- Press **Create cloud** and wait for dropbox login

- Enter your **dropbox account**
- Wait until cloud setup is ready

## 4 Team Member Administration

- Read manual [TeamMemberAdministration.pdf](#) (Find pdf on [www.buell-software.com](http://www.buell-software.com))
